

First Grade Summer

MATH!

Welcome to 1st Grade!

We are very excited about next school year and all of the fun activities we will work on together. We have many concepts that we will be studying. Some topics include: money, time, fractions, addition and subtraction strategies, 2 and 3 dimensional figures, and word problems. We have put together some activities that you can work on over the summer to keep your student's brain fresh and active.

★ Number Sense: Have your child practice counting to and from 100.

Practice addition and subtraction flash cards.

Say a number and have your child give the number before and after it.

Practice writing numbers to 100.

Practice tally marks to 25.

Practice counting by 5's and 10's to 100 and 2's to 50.

★ Pinterest is full of tons of free activities that you can create or print out to practice your first grade math skills! Check it out.

★ Visit www.coolmathforkids.com, www.funbrain.com, www.mathplayground.com, and www.starfall.com.

It is very important for students to practice number skills over the summer to be prepared for first grade.

We are looking forward to a great year!!
